4
                          mengetikkan localhost/dasarWeb/praktik_php/homeCRUD.php
```

```
Langkah
          Keterangan
          Buka file homeCRUD.php kemudian modifikasi kode program dengan
   1
           menambahkan link untuk menghapus data pada kolom aksi sehingga kode program
           menjadi seperti berikut ini:
           31
                ₽
                ¢
           32
                                    <a href="editForm.php?id=<?php echo $row["id"
           33
                                    <button>Edit</button> </a>
            34
                                    <a href="delete.php?id=<?php echo $row["id"].
            35
                                    <button>Hapus</a>
                                36
                  <a href="editForm.php?id=<?php echo $row["id"];?>">
                    <button>Edit </button>
                  <a href="delete.php?id=<?php echo $row["id"];?>"><button>Hapus</button></a>
   2
           Buat file dengan nama delete.php di dalam folder praktik_php, kemudian ketikkan
          kode program berikut ini:
```

TUGAS

1. Tambahkan kolom foto pada tabel **mahasiswa** melalui phpmyadmin (kolom foto berisi url folder dan nama file foto) (soal no 16)

DATA MAHASISWA

2. Ubah form tambah data dan edit data sehingga ada tambahan untuk mengupload foto. Ubah juga file PHP untuk memproses tambah data dan edit data. (soal no 17)
